

Greetings!

Over the last few months, the Teaching, Learning and Technology Roundtable (TLTR) Governance Committee has embarked on mission to select the next Learning Management System at Northampton. We've created a robust rubric to evaluate vendors, we've issued a Request for Proposals (RFP), we've reviewed proposals from the top three vendors, and we've met with them to discuss what they might bring to the Northampton Community to transform the lives of students.

We are now asking for YOUR feedback!

Please watch the vendor presentations below and then complete the survey at the end of this email.

LMS Vendor Demo: Students | NCC + D2L (Brightspace)
